A silence full of heart
and the five senses

Luxury soaked in the sound of water and warmth

Hot spring bath

Healing that basks in the warmth of the hot water while enveloped deeply in nature and the babbling of the brook. Two major baths and four exclusive rental baths with different themes are available. Heal in the warm waters of our home spa, which warms you to your core and overflows with a clarity of spirit.

Rooms

All rooms, which incorporate both pleasantness and functionality, are furnished with in-house hot springs and outdoor baths. The bliss of focusing on the colors of the trees, pricking up your ears to the timbre of nature, and thinking liberates the spirit. Relax in your room, where you can feel the warmth of nature.

A graceful time that liberates the spirit

Elegance that admires the seasons through sight and taste

Dining

Dining that makes full use of seasonal ingredients for a taste that delights both the body and the senses. Smiles at the seasonal colors and obsessive aroma of the soup stock, which are the essential ingredients of Japanese cooking. Enjoy to the full the treasured time serenaded by a spirited plateful accompanied by drink.
